1:30-2:20 p.m.	Effective Implementation of Clinical Coding Task Queues The move from paper-based medical records to electronic medical records has had an impact on the coding process, and requires changing workflow and processes for timely and accurate coding.	Improving Revenue, CMI, and Quality Care with Documentation Accurate and complete clinical documentation results in accurate reimbursement and, ultimately, quality patient care. The speaker will share actual case scenarios where the CMI was impacted by improved documentation.	Health Information Exchange: Challenges & Solutions As patients seek care at different health facilities, information exchange can help facilitate care. Learn how technology is making this transfer of information more efficient.

Hybrid Coding Exam Prep Workshop for CCA, CCS-P, CCS (combined prep for all three certifications) Abu Dhabi

Faculty: **Angie Comfort, RHIA, CDIP, CCS, CCS-P**, Senior Director, HIM Practice Excellence, AHIMA, USA and **Maria Ward, MED, RHIT, CCS, CCS-P**, Director, HIM Practice Excellence, AHIMA, USA

CCA registrants: 8:30 a.m.-12:30 p.m.
 CCS-P registrants: 8:30 a.m.-3:00 p.m.
 CCS registrants: 8:30 a.m.-4:15 p.m.

Venue: Cleveland Clinic Abu Dhabi, Room P2-938
CEUs: CCA - 5
 CCS-P - 7
 CCS - 8

Price: AHIMA members receive a 10% discount
 CCA - 450 AED
 CCS-P - 750 AED
 CCS - 900 AED

Register for this workshop and the AHIMA World Congress Middle East Healthcare Summit and receive a 15% discount on both registrations (cannot be combined with other discounts).

This innovative one-day, hybrid workshop covers the domains for all three of AHIMA's coding credentials - CCA, CCS-P, and CCS. All registrants will be provided with an introductory webinar prior to the workshop that explains the three coding credentials and provides some test-preparation tips, the exam preparation book, and a post-workshop assessment that can be used as a practice exam. This workshop provides coders with a review of the exam domains and assists them in strengthening and reinforcing competencies needed to prepare for their selected coding exam. This workshop will serve as a valuable supplement to a candidate's overall test preparation plan. Each domain item in the workshop contains information specific to that content area as well as practice test questions.

Entry-level coders (CCA-eligible) and experienced coders (CCS-P & CCS-eligible) will:

- Benefit from a structured review of and exercises on the examination domains
- Benefit from a review and application of ICD-10-CM/PCS coding guidelines
- Have increased confidence in their level of readiness for the CCA, CCS-P, or CCS certification exam
- Become aware of needed areas for focus in test preparation
- Benefit from a review of CPT/HCPCS Level II codes

CDIP Exam Prep Workshop Abu Dhabi

Faculty: **Tammy Combs, RN, MSN, CCS, CCDS, CDIP**, Senior Director, HIM Practice Excellence, Lead Nurse Planner, AHIMA, USA and **Wilbur Lo, MD, CDIP, CCA**, AHIMA World Congress Faculty, AHIMA, USA

9:30 a.m. - 4:30 p.m.

Venue: Cleveland Clinic Abu Dhabi, Room P2-926

Price: 900 AED; AHIMA members receive a 10% discount.

Register for this workshop and the AHIMA World Congress Middle East Healthcare Summit and receive a 15% discount on both registrations (cannot be combined with other discounts).

Prepare to earn AHIMA's highly-respected Certified Documentation Improvement Practitioner (CDIP) certification. This one-day in-person workshop covers all of the six domains in the CDIP exam: Clinical & Coding Practice, Leadership, Record Review & Document Clarification, CDI Metrics & Statistics, Research & Education, and Compliance. Faculty will incorporate real-world examples and learning activities into the training to facilitate learner retention. All registrants will be provided with an introductory webinar prior to the workshop that explains the CDIP credential and provides some test-preparation tips, the exam preparation book, and a post-workshop assessment that can be used as a practice exam. After successful completion of the workshop and certification-specific pre and post online study and assessment, attendees will be better prepared for the CDIP certification exam.

Attendees will be able to:

- Apply knowledge of official coding guidelines and MS-DRG assignment
- Analyze and develop effective physician queries
- Identify and apply CDI best practices
- Understand CDI workflow processes
- Evaluate CDI metrics and statistics for tracking the effectiveness of the CDI program
- Become aware of needed areas of focus for test preparation

Healthcare continues to become more data-driven, making health data analysts more valuable than ever. Individuals who earn the Certified Health Data Analyst (CHDA) designation will achieve recognition of their expertise in health data analysis and validation of their mastery of this domain. This workshop is an extensive one-day face-to-face event designed to prepare the healthcare professional to sit for the CHDA examination. All domains covered in the CHDA exam are reviewed, including Data Management, Data Analytics, and Data Reporting.

The CHDA Exam Prep Workshop will prepare CHDA-eligible candidates to:

- Sit for the CHDA certification exam
- Apply knowledge of how to interpret analytical findings for clinical, financial, and operational recommendations
- Validate results through qualitative and quantitative analysis
- Demonstrate the expertise needed to generate routine and ad-hoc reports using internal and external data sources
- Review the development and maintenance of data architecture and data structures to support business needs

With the continuing advancements in technology and the increasing demand for qualified health informatics professionals the new informatics credential - Certified Professional in Health Informatics (CPHI) - will provide credibility and recognition to individuals who possess the required knowledge and expertise of health informatics. The new credential will enable an individual to further advance their career. It also demonstrates a competent workforce and professional group for system support, subsequent organizational support, prestige, and the opportunity to belong to a prestigious premier professional association.

The CPHI Preview will:

Introduce candidates to the CPHI certification exam domains and eligibility requirements, including the following topics:

- Data Analysis and Utilization
- Data Reporting
- Data Management, Privacy, and Security
- Management of Health Information Systems and Processes
- Database Management
- Informatics Training
- Project Management

DRG systems are becoming commonplace around the globe. Attend this workshop to learn about the various DRG systems available to the healthcare industry, along with seeing demonstrations of various DRG systems in action. Attendees will learn about IR-DRGs, AR-DRGs, MS-DRGs, APR-DRGs, along with the impact of severity of illness (SOI) and risk of mortality (ROM) on certain DRGs. Complications/Co-morbidities (CCs) and Major Complications/Co-morbidities (MCCs) will also be discussed. The impact of accurate code and DRG assignment on case mix index (CMI) will be covered.

Attendees will be able to:

- Review the development of the various DRG systems
- Analyze how the DRG system works with case scenarios
- Evaluate SOI, ROM, CCs and MCCs
- Calculate CMI

Ensuring the privacy, security, and confidentiality of personal health information has always been a fundamental principle for the health information management (HIM) profession. Today, HIM professionals continue to face the challenge of maintaining the privacy and security of patient information, an effort that grows in complexity as information becomes more and more distributed in electronic systems. The challenge of this responsibility has also increased due to the constantly changing legislative and regulatory environment.

Attendees will be able to:

- Evaluate the importance of robust privacy and security practices within their facility
- Realize the role that HIM professionals play in protecting patients' privacy and security
- Examine the differences between privacy, security and confidentiality
